### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: As recited in the ( sole ) independent claim 1, the present invention calls for a micro-mirror element comprising features very similar to those laid out in independent claims 1 and 2 of Soneda et al'992 ( having common inventors ). However, the present invention is not interested in second frame and second torsion bars to be part of the subject matter claimed. Instead, a detector for detecting a pivot angle of the mirror portion is introduced in the present subject matter claimed. The latter added feature is not seen as an obvious expedient in the art. Therefore, an obviousness-type double patenting issue cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Loha Ben whose telephone number is (571) 272-2323. The examiner can normally be reached on Monday to Saturday, generally between 12:00 noon and 8:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Y. Epps, can be reached on Monday to Friday, at (571) 272-2328. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
